● Tin of 12   ● Tin of 24   ● Tin of 36

All colours comply with international lightfast testing standard, ASTM D6901 and Blue Wool Scale ISO 105 and are 100% Lightfast LFI.

Derwent uses the Blue Wool test (ISO 105) to evaluate lightfastness. Lightfastness refers to the chemical stability of a pigment under long exposure to light. A scale of 1-8 is obtained, with values of 6 or higher being considered to be highly lightfast and under museum conditions, will not fade for 100+ years.
